Projects

EliteSalon – Book Smart , Look Smart
Technologies:
React.js, Node.js, Express.js, MongoDB, Bootstrap, REST APIs, Git, GitHub

Developed a full-stack salon booking platform using the MERN stack with separate modules for Customer, Owner, Admin, and Guest users. The application enables appointment booking, rescheduling, and pincode-based salon search to improve user convenience. Built responsive user interfaces with React.js and integrated REST APIs for seamless frontend-backend communication while using MongoDB for efficient data management.

PetCareHub – Online Veterinary System
Technologies:
PHP, MySQL, HTML, CSS, JavaScript, Bootstrap

Developed a web-based veterinary management system that allows users to book pet appointments and manage pet-related products. The application includes multiple user roles, an admin dashboard, and CRUD operations for efficient data management. Built using PHP and MySQL with a responsive interface to provide a smooth and user-friendly experience.
